BIARI Brown International Advanced Research Institutes-Brown University

PROGRAM OBJECTIVES

• Innovative Research- The BIARI program aims to make a significant contribution to global research through transnational academic collaboration, promoting Brown's vision of the global university.

- New Vectors of Global Exchange-The objective is to provide a platform for promising young faculty from the global south and emerging economies to engage in a high level and sustained intellectual and policy dialogue with leading scholars in their fields and each other.
- Sustainable Network Building- using the Virtual Academic Network (V.A.N) a custom-built online organizing tool designed to facilitate academic exchange before, during and beyond BIARI's residential component.
- Each institute is organized as a mix of lectures, round table discussions, group work, field trips, cultural events and social interactions. Each is led by a team of distinguished Brown faculty who have invited world-renowned lecturers and speakers to join and participate in the Institute's formal and informal activities.

The BIARI program, designed for young scholars embarking on lives in research and teaching, is a major faculty development initiative that addresses the canonical and cutting-edge questions of the field, contributing to building the next generation of transnational academic community.
